

## Setup & Teardown

Setup and Teardown services are only eligible for clients who also have contracted Concept Development Services through the studio.

Setup pricing is based on wedding guest count. The more guests = more décor = more work!

## Setup & Teardown Pricing

When you hire the studio to do your setup and teardown this means you have gone through the concept development process with us. The items developed in this process will be the items the studio will setup and tear down for you! If added items are needed, outside of the scope of our map, we handle those on a case by case basis.

These packages do NOT include:

Added chair or table setup/ teardown

Linens (runners and small overlays are an exception)

Draping

*Blush: (1-101 guests): \$600.00*

*Gallica: (102-200 guests): \$700.00*

*Province: (201-300 guests): \$800.00*

Teardown services include the studio gathering and packing all items that were part of the setup process. The studio does not transport décor to or from the venue. It will be expected of the client to have a family member, or friend, who is going to be responsible for transportation. More information can be found in Policies of the Program.
